CHEMICAL EQUIPMENT DIVISION

THE WIDEST DIAMETER

PTFE LINED COLUMNS

ARMYLOR - THE LARGEST SEAMLESS PTFE LINED COLUMNS

- The best solution for arduous duties, such as HCl stripping, HF processing, etc.

- Diameters from DN 250 up to DN 1600, with heavy duty seamless PTFE liners

- "Modular" system with sections 1500 mm maximum height

- Safe and reliable design, without gasket between elements

- Double lining system (ETFE + PTFE)

- A full range of internals in graphite, noble metals and fluoropolymers (PTFE, PVDF, etc.)

- Customised designs to answer specific requirements (45° nozzles, conical draining bottoms, etc.)
