CHEMICAL EQUIPMENT DIVISION

GRAPHILOR 3

The finest grain

• **Our GRAPHILOR 3** is the only isostatic fine grain graphite used for process and chemical equipment (grain size less than 20 μm).

Graphite used in 1980 - Grade S.

Unimpregnated Graphite
Scale : 0.2 mm - 0.08 inch.

Impregnated Graphite
Scale : 0.2 mm - 0.08 inch.

Graphite isostatic X used by CARBONE LORRAINE

Unimpregnated Graphite
Scale : 0.2 mm - 0.08 inch.

Impregnated Graphite
Scale : 0.2 mm - 0.08 inch.

The highest temperature, mechanical, corrosion resistance:

- XBS grade: 220° C - TÜV homologation: G 25.00.220° C
- XC grade: 430° C - TÜV homologation: G 18.00.430° C
- XTH grade: 250° C - TÜV homologation: G 22.00.250° C
